Embed Fonts in PowerPoint

เทคนิคการฝังตัวอักษร (Embed Font)

File > Options > Save > Embed fonts

The screenshot shows the Microsoft PowerPoint interface with the 'Options' dialog box open. The 'Save' tab is selected in the left-hand menu. The 'Embed fonts in the file' option is checked and highlighted with a red box. The options are:

- Embed fonts in the file
- Embed only the characters used in the presentation (best for reducing file size)
- Embed all characters (best for editing by other people)

The background shows the 'Info' section of the ribbon with options like 'Protect Presentation', 'Inspect Presentation', and 'Manage Presentation'.
